Alternate in 2021

- The 55th edition of the Nitto ATP Finals – and third at the Inalpi Arena in Turin – begins with Ilie Nastase Group action on Sunday with last year's runner-up World No. 1 **Jannik Sinner** making his 3rd tournament appearance in front of home crowd against debutant **Alex de Minaur**. The Italian enters the event on a 6-match winning streak after winning ATP Masters 1000 Shanghai and seeks 8th title of the season, most since Murray (9) in 2016.
- He leads his **Lexus ATP Head2Head** vs. de Minaur 7-0, including wins over Australian to capture 2019 Next Gen ATP Finals, 1st ATP Masters 1000 title at 2023 Toronto and first Davis Cup title for Team Italy since 1976. The 23-year-old has already guaranteed himself year-end No. 1 in PIF ATP Rankings after becoming the first Italian World No. 1 in PIF ATP Rankings history earlier this season.
- After earning first two career Grand Slam titles in 2024, Sinner could become 3rd player in history to win Aus. Open, US Open and Nitto ATP Finals in one season, joining Federer (2004, 2006-07) and Djokovic (2015, 2023).
- Alex de Minaur** is the only debutant in the singles field and is the first Australian at Nitto ATP Finals since **Lleyton Hewitt** reached 2004 final. He looks to record his 250th win of his career on Sunday, earn his first win over **Sinner** and first Top 10 win since defeating No. 5 Medvedev in Roland Garros 4R.
- In the absence of record 7-time champion **Novak Djokovic**, who became the oldest man to capture Nitto ATP Finals title last year, it marks the first time since 2001 there is no Djokovic, Nadal or Federer in the final 8 line-up.
- One of two former champions in the draw, **Daniil Medvedev**, makes his sixth consecutive appearance at the event. The 28-year-old, who earned the Nitto ATP Finals title at last edition in London in 2020, will bid to win a single event multiple times for the first time in career after earning all 20 career titles at 20 different events and looks for first title since ATP Masters 1000 Rome in May last year. He takes a 1-0 **Lexus ATP Head2Head** lead into his opening round robin match vs. **Taylor Fritz** on Sunday.

- 2020 champions **Wesley Koolhof** and **Nikola Pietrangeli** return to Nitto ATP Finals as a team for the first time since their title winning run, as they are joined in the **Mike Bryan Group** by last year's finalists **Marcel Granollers** and **Horacio Zeballos** and two pairs of Nitto ATP Finals debutants: US Open champions **Max Purcell** and **Jordan Thompson** and Wimbledon champions **Harri Heliövaara** and **Henry Patten**.

SEMI-FINAL QUALIFYING PROCEDURE

The final standings of each group shall be determined by the first of the following methods that apply:

- Greatest number of wins;
- Greatest number of matches played;
Comment: 2-1 won-loss record beats a 2-0 won-loss record; a 1-2 record beats a 1-0 record.
- Head-to-head results if only two (2) players are tied,
- If three (3) players are tied, then:
 - If three (3) players each have one (1) win, a player having played less than all three (3) matches is automatically eliminated and the player advancing to the single elimination competition is the winner of the match-up of the two (2) players tied with 1-2 records; or
 - Highest percentage of sets won; or
 - Highest percentage of games won; or
 - The player positions on the PIF ATP Rankings as of the Monday after the last ATP Tour tournament of the calendar year.
- If (i), (ii), (iii) or (iv) produce one (1) superior player (first place), or one (1) inferior player (third place), and the two (2) remaining players are tied, the tie between those two (2) players shall be broken by head-to-head record.

Comment 1: 1 player has 3 wins and the other 3 players have 1 win. Of the 3 players with 1 win, 1 player has only played in 2 matches while the other 2 players have played 3 matches. The player who has only played 2 matches is eliminated and then the 2 remaining players revert back to head-to-head results with the winner of their match advancing to the semi-finals.

Comment 2: 1 player has 3 wins and the other 3 players have 1 win and they all have played 3 matches.

The tie-break for % of sets won has 1 player with a better % than the other two. This player advances to the semi-final round.

Comment 3: 3 players have 2 wins and the other player has 0 wins. The player with 0 wins is eliminated. Of the 3 players with 2 wins, they are ordered by their % of sets won. This produces a 1, 2 & 3 order and the players finishing 1 and 2 move to the semifinal round and the player finishing 3 in % of sets won is eliminated. The player with the best % of sets won is the winner of the group.

Comment 4: 3 players have 2 wins and the other player has 0 wins. The player with 0 wins is eliminated. Of the 3 players with 2 wins, 1 player's sets won-loss is 5-2 for 71.43%; the other 2 players both have a 4-3 record in sets for 57.14%. In this case there is 1 superior player (71.43%) and the remaining 2 players are tied; it now reverts to the head to head result of the 2 remaining players with the winning player advancing as group runner-up.

Comment 5: 3 players have 2 wins and the other player has 0 wins. The player with 0 wins is eliminated. Of the 3 players with 2 wins, 2 have set won-loss records of 5-3 (62.5%) while the other player is 4-3 (57.14%). In this case we have 1 inferior player (57.14%) and he is eliminated. The remaining two players both advance to the semi-finals with the winner of their head-to-head match advancing as the group winner.

Comment 6: 3 players have 2 wins and the other player has 0 wins. The player with 0 wins is eliminated. Of the 3 players with 2 wins, all have played 3 matches and all 3 have set won-loss records of 5-4 (55.56%). In this case we move to % of games won. The % of games won breaks down like this: 44-40 for 52.38%, 45-43 for 51.14% and 44-43 for 50.57%. This produces a 1, 2 and 3 order of the group and the number 1 player in % of games won is the group winner while the player finishing 2nd in % of games won advances to the semi-finals as the group runner-up. The player with the 3rd best % of games won is eliminated.

Tennis Data Innovations Insights uses algorithmic software to process ball and player tracking data in real-time to calculate shot type, shot quality, situation, phase of play and tactic for every shot. Insights explained at <https://www.atptour.com/en/news/insights-introduction>.

Insights from their 52-week averages:

Player	In Attack	Conversion Score	Steal Score	Serve Quality	Return Quality	Forehand Quality	Backhand Quality
Medvedev	22.1%	67.9%	37.1%	7.82	8.02	7.87	7.97

<i>Tour Avg.</i>	<i>24%</i>	<i>67%</i>	<i>33%</i>	<i>7.9</i>	<i>6.5</i>	<i>7.5</i>	<i>7.1</i>

A contributing factor to Medvedev's high steal score is his high % of shots in with both forehand and backhand.

Forehand shots in = 85%, tour average = 84%

Backhand shot in = 90%, tour average = 86%
